II. Approval of Minutes from August 25, 2015 Curriculum Committee Meeting

On an Ali/McDevitt motion, the minutes for August 25th 2015 were approved as amended.

III. Co-Chairs Report

Yesterday the Co-chairs of the Graduate Committee and the UWUCC met with Mocek and Eric from IT about modifications to adapt to the new online system. Only when there are major changes to a proposal will the proposal be returned to the beginning of the approval process. The proposers will now be given editorial rights when it reaches the UWUCC level so that they can correct relatively minor wording changes. The co-chairs also have editorial rights to correct typos and other minor changes (while informing the proposer). There will be a dashboard where the committees can tell the proposers what tasks they need to perform. The proposal will be pending or provisional until the changes are made and then after the committees verify that the corrections have been made then they would be marked as approved.

IV. Liberal Studies Committee Report

Minutes of August 27, 2015

V. Items for Review/Possible Action:

15-28a GEOS 119 Geology of Energy Resources, new course

The course cannot be both a NS course and a LS elective. We assume that the LS elective, scientific reasoning box should be unchecked. The course is best suited as a natural science knowledge area course.

Question on the number of total students in the online vs. the dETB-10(2-9(a)4()-9(L)11(S)-3()-9(

Why is there a difference between what is expected between the f-2-f and online students?

On a Killam/Pararai motion the proposal was provisionally approved.

15-32a SAFE 104 Introduction to Safety in the Natural Gas Industry, new course

Replace graduate assistants with Teacher associates/temporary faculty.
