

# FDNT 212 Nutrition-CrsRvs-2018-10-07

- The workflow icon is no longer available. Please click on the Page Status after the orange circle icon near the page title. \*

## Form Information

The page you originally access is the global template version. To access the template document that progresses through the workflow, please complete the following steps:

**First Step:** ONLY change the text in the [brackets] so it looks like this: **CRIM 101 Intro to Criminology-CrsRvs-2015-08-10**

- If DUAL LISTED list BOTH courses in the page title*

**Second Step:** Click “SAVE” on bottom right

- DO NOT TYPE ANYTHING INTO THE FIRST PAGE OTHER THAN THE TEXT IN BRACKETS*
- Please be sure to remove the Brackets while renaming the page*

**Third Step:** Make sure the word **DRAFT** is in yellow at the top of the proposal

**Fourth Step:** Click on “**EDIT CONTENTS**” (*not EDIT*) and start completing the template. When exiting or when done, click “**SAVE**” (*not Save Draft*) on bottom right

When ready to submit click on the workflow icon and hit approve. It will then move to the chair as the next step in the workflow.

Course Revisions	
(Check all that apply; fill out categories below as specified; i.e. if only changing a course title, only complete Category A)	
Category A:  catalog_desc_change mod_prereq	Category B:  <i>* Teacher Education: Please complete the Teacher Education section of this form (below)</i>  <i>* Liberal Studies: Please complete the Liberal Studies section of this form (below)</i>  <i>* Distance Education: Please complete the Distance Education section of this form (below)</i>

<b>Rationale for Proposed Changes (All Categories)</b>
--

<p><b>(A) Why is the course being revised/deleted:*</b></p> <p><i>Please be specific - this should be have more detail than the Summary for the Senate.</i></p>	<p>The course description and prerequisites for FDNT 212, Nutrition are being changed for four reasons:</p> <p>(1) the Nutrition Track, Liberal Studies Natural Science courses, have been changed so that students can choose between Biology and Chemistry. Either choice provides an adequate background to succeed in this track.</p> <p>The revised Nutrition Track includes BIOL 104 and 106 as options to CHEM 101 and 102 so that the requirements of the Nutrition Track are the same as the nutrition minor, which accepts BIOL 104 and 106 or CHEM 101 and 102.</p> <p>Food and nutrition faculty assessed that students with a prerequisite of BIOL 104 who take FDNT 212 perform as well as those with chemistry and recommend the addition of BIOL 104 as a prerequisite for FDNT 212. Food and Nutrition faculty recommend adding BIOL 104: How the Body Works, as a prerequisite to FDNT 212, Nutrition.</p> <p>Currently, chemistry is the only prerequisite for FDNT 212.</p> <p>(2) The addition of the phrase,"emerging and alternative food and nutrition topics" was recommended by the Dean's office to modernize the course description. Food and Nutrition faculty unanimously agree that adding this phrase does not change the course content, since we always include emerging and alternative food and nutrition topics in our courses. Food and Nutrition faculty recommend adding "emerging and alternative food and nutrition topics" to the FDNT 212 course description at the behest of the Dean's office.</p> <p>The addition of "dietary risk factors to chronic diseases" to the course description does not change the course content. Discussing diet and its relationship to chronic disease is and has been a ubiquitous topic in FDNT 212. Adding the phrase "dietary risk factors to chronic diseases" is strategy to modernize the course description.</p> <p>(3) Sophomore status is being added because FDNT 212, Nutrition is a sophomore-level class and applies natural science concepts typically learned early in a student's education.</p> <p>(4) The course description is also being revised to update the description to support the current catalog editing style.</p>
<p><b>(B) University Senate Summary of Rationale*</b></p>	<p><i>Please enter a single paragraph summary/rationale of changes or proposal for University Senate.</i></p> <p>Proposed changes and prerequisites to FDNT 212, Nutrition, are:</p> <p>(1) BIOL 104, Human Biology: How the Human Body Works and BIOL 106, Human Genetics and Health as prerequisites since they have been added as an option to the Liberal Studies natural science choices in the Nutrition Track curriculum.</p> <p>(2) modernize the course description, and</p> <p>(3) limit the course to students who have at least sophomore status.</p>
<p><b>(C) Implications of the change on the program, other programs and the Students:*</b></p>	<p>There are no implications of this change on the program or other programs or students. The Department of Nursing and Allied Health has been notified about the "sophomore status" as a courtesy. FDNT 212 Nutrition is a sophomore nursing course.</p>

Current Course Information*	
Category A	
<b>(D) Current Prefix*</b>	

**Liberal Studies courses must include the perspectives and contributions of ethnic and racial minorities and of women whenever appropriate to the subject matter. Please explain how this course will meet this**
